

Good, clean efficiency

Notice the difference between dirty coils and coils after a CoolSaver A/C Tune-up.

During a CoolSaver Tune-up, your contractor will:

- Measure indoor airflow at filter grill and correct if needed
- Inspect filter and change or clean
- Clean outdoor condenser coils
- Inspect indoor coil with videoscope and clean
- Inspect indoor blower and clean
- Adjust refrigerant charge to manufacturer's specifications using a digital refrigerant analyzer
- Test A/C to verify how much cooling you're actually getting
- Apply discount from SWEPCO to your service invoice

TUNE UP YOUR BOTTOM LINE

Brought to you by

COMMERCIAL COOLSAVER
A/C TUNE-UPS

Air conditioning system not working as efficiently as it should?

Stay cool and save

A CoolSaver A/C Tune-up can improve the cooling output and efficiency of your central A/C unit by up to 30 percent. Plus, you can receive up to \$2,500 in instant SWEPCO discounts.

How it works

A program-qualified contractor will identify ways to improve the efficiency of your A/C, implement any recommended improvements and apply the discount to the services.

State-of-the-art diagnostic tools and procedures will result in cooler air in your building, increased performance and lower energy use.

Benefits

- Lower energy costs
- Cooler indoor environment
- Improved humidity control
- Extended life of your unit

Who is eligible?

- SWEPCO's Arkansas commercial customers with a central A/C or heat pump, up to 25 tons* and at least one year old
- Units that have completed a CoolSaver Tune-up within the last five years are **not eligible**

*Pre-approval of units greater than 25 tons is required.

How to participate:

1. Contact SWEPCO at **888.266.3130** to schedule a meeting with a qualified CoolSaver contractor.
2. Your contractor will conduct an evaluation of your existing equipment, identify energy-saving improvement opportunities and complete the CoolSaver Tune-up.
3. Your contractor will apply the SWEPCO incentive as an instant discount on your final bill.

CoolSaver commercial incentive rates:

1.5 to 3.5 tons	\$225
4 to 5 tons	\$275
6 to 10 tons	\$450
11 to 15 tons	\$650
16 to 25 tons	\$800
26 to 30 tons*	\$850
31 to 50 tons*	\$1,400
51 to 80 tons*	\$2,000
80+ tons*	\$2,500

*CoolSaver Tune-ups on systems greater than 25 tons must be coordinated with a CoolSaver Energy Advisor.
